

Glacier Springs Self-Filling Water Cooler (Residential)

- Eliminates the high cost of bottled water
- Self filling reservoir – never runs out of Purified Water
- 1.5 gallon reservoir
- No more lifting of those heavy water bottles
- Eliminates those monthly water bills that will last **FOREVER**
- Costs only pennies per gallon
- Ideal for home or office
- Easily plumbed into any water line
- Guaranteed to be as good or better than most bottled water
- Better tasting coffee, tea, juices, soups, etc.
- State of the art technology – reverse osmosis and activated carbon
- R0 18 (produces approx. 2-3 gallons in 24 hours)
- Can be removed and installed elsewhere
- Easily expanded – can be connected to coffee makers
- Healthier for all employees and clients
- No annual increase in price of water – you always know what your water bill is going to be
- Healthier plants and pets
- Ultra-violet disinfection (optional)
- Why not use your own water? You are already paying for it!

WARRANTY: All Glacier Springs Residential Models come with a 4 year limited warranty.
